## Levee Trustees' Ouster Delayed

An Appellate Court order delaying the removal of four trustees of the East Side Levee and Sanitary District was issued Saturday, blocking a move to elect five new levee board members as soon as a special election could be arranged.

The stay order was granted at Shelbyville by Appellate Judge Edward Eberspacher on the petition of John Hoban, attorney for the four incumbent levee district trustees who were ordered removed from office in circuit court at Belleville last week. The order permits the four trustees to continue in office pending an appeal of their conviction on misconduct charges to the Fifth District Appellate Court.

The trustees—Morris Camp-

bell, Lawrence Tolar and George Duff of East St. Louis, and William "Mike" Eberspacher—were sentenced by Circuit Judge Alvin Mayers in the Belleville court to three years probation, fines totaling \$1250 each and removal from office. The sentencing followed their earlier conviction on misconduct charges growing out of the alleged payment of attorney fees in excess of the amount permitted by statute and the awarding of certain contracts without competitive bidding.

**Requested Stay Order**  
At the time Judge Mayers pronounced sentence, Hoban filed a motion to stay the removal order pending appeal of

## School Classes Resumed Today

Granite City High School students returned to classes today as administration officials took steps for demolition and clean-up of the fire-damaged area of the high school auditorium building and preservation of those sections untouched by last Monday's fire.

Decision to resume classes was based on engineering inspections of the structural soundness of the floors of the second-floor typing classroom area and the walls in the office area. Bracing of walls was begun last week and continued during the weekend.

Work also had begun today on a proposal submitted in a recessed meeting of the Board of Education Thursday night by Henry Gabriel of Gabriel & Dulgeroff, Inc., architects, which will preserve the undamaged section of the building by protecting it against the weather until school officials decide on a building plan that probably will be carried out next summer when schools are closed for vacation.

**Part To Be Used**  
The plan accepted by the school board calls for clearing debris from the second floor and knocking down the upper walls to the second floor level. A temporary roof deck will then be installed to enclose the first floor. Five doors also would be installed and the office area and other parts of the first floor remodeled for temporary use.

With about one-third of the

area still to be cleared of debris, Gabriel said this job and the roofing work could be completed during the Christmas vacation period. Schools will be dismissed Dec. 25 and will resume Jan. 4. Gabriel pointed out the school board could decide later as to plans for replacing the auditorium building.

Bids are being sought in advertisements published in today's edition of the Press-Record for the temporary repairs that will include enclosing the first floor.

The bids are to be opened at 1 p.m. Thursday and if an acceptable offer is received a contract may be awarded in a recessed meeting of the board that night. Plans and specifications are being prepared.

## Council to Consider Shop Center Zoning

Action on a requested zoning change for a 12-acre tract of land at Maryville and Ponton Roads, to be used for construction of a shopping center, is on the agenda of the Granite City Council meeting tonight.

The City Planning Commission recommended to the council that the rezoning, requested by First Granite City National Bank as trustees for the land owners, be turned down. The council deferred action on the recommendation two weeks ago to permit council members to study the proposal further.

No details concerning the proposed shopping center construction have been announced but it is reported the center would involve about \$2 million in building costs.

**POSTHUMOUS AWARDS.** Mrs. Shirley M. Hester accepts eight military decorations, including the Bronze Star, won by her husband, Staff Sergeant Charles R. Hester, from Col. John A. Hengel, Granite City Army Depot commander. The serviceman was killed in action in Vietnam last June 30.

## Drug Cache, Guns Seized In Madison

A cache of 17 guns, including 11 shotguns and rifles, 2,175 rounds of ammunition and a large quantity of prescription drugs, were seized by Madison police at 11:30 p.m. Friday night in a raid on an apartment in the 1300 block of Madison avenue.

Police said they are holding the occupant of the apartment. No charges had yet been filed today.

Police said they obtained a search warrant after an area resident reported he had seen a man enter the building carrying a machine gun. No machine gun was found.

Authorities said they confiscated two shotguns, nine rifles, six pistols, 2,175 rounds of ammunition, scopes, a large quantity of prescription drugs, a hypodermic needle, three black-jacks, a knife with an eight-inch blade, an air hammer and tools.

Many of the items are believed to have been stolen in burglaries, officers said.

## 30 DAYS WITHOUT A QUAD-CITY TRAFFIC FATALITY

## Gateway Council Now At Peak of Activity

The East-West Gateway Coordinating Council reviewed and endorsed projects involving requests for a total of \$179,523, 179 in federal and local funds during its 1969-70 fiscal year, according to a report presented at the Gateway Council's annual meeting in St. Louis Thursday night.

The improvements processed during the year ending last June 30 included 13 projects in Madison county involving a total of \$28,547,700, the report said.

About 400 persons attended the annual meeting at Stouffer's Riverfront Inn, at which Mayor Samuel W. Yorty of Los Angeles was principal speaker. The three-term mayor said public officials are plagued with unfair attacks by the news media and are faced with impossible legal obstacles when they attempt to sue.

He blamed the Supreme Court for current sentiment against the police and described the police as the "guardian of constitutional rights."

"But the Constitution of the United States is what the Supreme Court says it is," Yorty asserted.

## Eight Medals Awarded Posthumously to Widow of GC Veteran Killed in Vietnam

By VALERIE EVENEDEN  
Press-Record Staff Writer

The Bronze Star, Army Commendation and Purple Heart Medals awarded posthumously to Staff Sgt. Charles R. Hester, U. S. Army, were presented last week to his young widow in ceremonies at the Granite City Army Depot.

Mrs. Shirley M. Hester, a life-long resident of Granite City, accepted eight decorations awarded her husband who was killed last June 30 in Vietnam while serving on his second tour of duty in the combat area.

The medals were presented by Colonel John A. Hengel, commanding officer of the Granite City Army Depot.

Witnessing the ceremony were Sgt. and Mrs. Hester's two small children, Melinda Sue, 5 and 3-year-old Charles Richard Jr., Mrs. Hester's mother, Mrs. Joe Whit, 1125 Meridian St., and members of the Depot military staff.

**Honors Brave Men**

Noting the posthumous presentation of military decorations to a serviceman's family "is the most painful duty an Army officer must perform," Col. Hengel told Mrs. Hester.

"The Army makes these awards only to very brave men," he said.

Sgt. Hester was fatally wounded on June 30 when a vehicle in which he was riding exploded after striking a land mine planted by an enemy force. Several other U. S. servicemen were killed in the same incident, Mrs. Hester said.

At the time of his death, Sgt. Hester had served 10 consecutive months in Vietnam and was due to return home in less than 60 days. His previous service in the combat theatre had extended over 20 months from May 1967 to Jan. 12, 1969.

Sgt. Hester was a member of the U. S. Army Engineers. He had been assigned since Aug. 28, 1969, to the 362nd Light Maintenance, a heavy construction unit that built and maintained roads in various sections of South Vietnam.

**Eight-Year Veteran**

A veteran of eight years Army service, he was stationed at the Granite City Army Depot with the 185th Engineers from 1963 to 1969. Sgt. and Mrs. Hester were married here in 1963. In 1965 the couple went to Germany where Sgt. Hester was based for more than a year.

The serviceman's parents are Mrs. Virginia Lewis of Shreve-

port, La., and Charles M. Hester of Marshall, Tex.

The citation accompanying the Bronze Star Medal, read by Lt. Michael C. Maschke, GCAAD, "The energetic application of his extensive knowledge materially contributed to the efforts of the United States mission to the Republic of Vietnam to assist that country in ridding itself of the communist threat to its freedom."

"Sgt. Hester's initiative, zeal, sound judgement and devotion to duty have been in the highest tradition of the United States Army and reflect great credit on himself, his unit and the military service."

## Major Illinois Airport Needed, Aldermen Told

By HARRY BARNES  
Press-Record Staff Writer

A bill that would permit the city of St. Louis to join with the state of Illinois in development and operation of a major metropolitan airport in the Illinois sector of the region was introduced for first reading to the St. Louis Board of Aldermen Friday.

The bill is supported by St. Louis Mayor A. J. Cervantes and Aldermanic President Joseph Badaracco, but it drew opposition from some St. Louis construction unions which apparently plan to protest location of the proposed \$350 million airport on the Illinois side of the river.

The measure would allow Mayor Cervantes to appoint two members to the St. Louis Metropolitan Airport Authority which has been established by the state of Illinois, but which now has only five Illinois members. Under a proposed joint agreement between St. Louis and Illinois, the authority eventually would take over operation of St. Louis Lambert Airport.

At that time, St. Louis would name three more members of the airport authority.

Cervantes told the aldermen in Friday's meeting that a new

second airport built in Illinois would be closer and far more convenient to the city of St. Louis.

Three labor leaders sent telegrams to the Board of Aldermen asking that a public hearing be held on the airport proposal. They were Joseph Cousin, secretary-treasurer of the St. Louis Construction and Building Trades Council; Leo Florion, business manager of Plumbers Local 35, and State Rep. Thomas A. Walsh, president of the Missouri State Construction and Building Trades Council.

## Boy, 15, Former GC Resident, Fatally Shot

A former Granite City youth was shot and killed by a 17-year-old boy while he and a group of juveniles were reportedly prowling around an old house on Sand Road near old Route 66 in Edwardsville Township early Saturday morning.

Walter R. Landers Jr., 15, a sophomore at Edwardsville High School, was shot in the neck with a 16 gauge shotgun at about 12:55 a.m. Saturday and was pronounced dead on the scene at 1:15 a.m. by Coroner Robert Thomas.

He was the son of Mr. and Mrs. Walter (Wichard) Landers of Route 3, Edwardsville.

Landers and three other youths were allegedly attempting to break into the old house which was guarded by 17-year-old John R. Riggins, Route 6, Edwardsville.

The house was owned by Riggins' father, Charles Riggins, and the youth was guarding it after several vandalism incidents there recently. It had apparently been vacant for some time and the windows were boarded with plywood.

One of the juveniles, with Landers reportedly pulled the plywood partially off a front

## Winter Weather Triple Threat To Motorists

Holiday traffic, slippery streets and poor visibility combine to create a triple threat to drivers, according to Harry Porter Jr., Executive Secretary of the National Safety Council's Traffic Conference.

"It is unfortunate—and often tragic—that the upsurge in traffic during the holiday season so often coincides with our worst winter weather," said Porter. "Worse yet, most winter driving accidents are needless—they could be avoided by a few simple, commonsense precautions."

Getting your car ready for winter weather is the first step, he pointed out. "Half the battle is won when your car is in first-class mechanical condition, particularly those items that affect traction and vision, such as brakes, tires, lights, defroster and windshield wipers."

"For driving on slippery pavements, good tires with good tread are a must. Snow tires are helpful for pulling through snow and studded snow tires are still better for added traction on icy pavements. For severe snow and ice conditions, however, reinforced tire chains are far more effective. Carry them in your trunk and be prepared to use them in deep snow and glare ice," Porter advised.

To combat the other hazard associated with winter weather—poor visibility—he urged drivers to clear snow and ice from all windows, not only the windshield but the side and rear windows as well. "Good visibility to the side and rear is also essential in today's heavy traffic," he said.

Check your defroster to be sure it is functioning properly, and replace windshield wiper blades if they are streaking or smearing. Be sure your windshield washers have an adequate supply of anti-freeze solution.

"Most important of all," he concluded, "keep up on your own winter driving habits. Reduce your speed, increase your following distance, signal your intentions to other traffic well in advance of any maneuvers such as turning, slowing down or changing lanes. Remember that other drivers may not be able to see and maneuver quickly enough to avoid an accident."

## Higher Board Holds SIU-SW 1972 Enrollment at 16,240

The State Board of Higher Education has received a report from its subcommittee on institutional size that would limit enrollment at Southern Illinois University - Southwestern to 16,240 in 1972.

Southwestern campus enrollment was limited to 13,700 last fall because of a severe shortage of classroom space. No classroom construction is under way now and even if construction starts next spring it would take a minimum of two years to complete a project of any size, University officials say.

Funds have been appropriated by the State Assembly for two classroom buildings, but Gov. Richard Ogilvie has not authorized release of the funds. The release is essential before architect's drawings on the two buildings can go out for construction bids.

Dr. John S. Rendleman, man, chancellor of the Southwestern campus, has indicated the University may be able to accept 500 more students next fall as the result of some building remodeling, but any major increase must wait until additional classroom buildings can be constructed.

The subcommittee report on institutional size will be reviewed by the Board of Higher Education and public hearings will be held on campuses prior to a final decision on enrollment limits.

The subcommittee proposal calls for a maximum enrollment at Southwestern of 18,400 in 1974; 20,883 in 1976; 22,983 in 1978 and 25,000 in 1980.

Chancellor John S. Rendleman will be the principal speaker, Laurence R. McAnany, dean of the Science and Technology Division, will be master of ceremonies for the dinner. Dancing will follow with music by Russ David's orchestra.

Honorees will be those who will have completed 10 years of service or more with the University during the current academic year. The group includes 15 with 10 or more years. Awards to those with five years of service will be presented on Dec. 15 by their department heads.

Charles Butler, administrative aide to the Board of Trustees, and William J. Tudor, assistant to the vice president and director of Regional and Urban Development Studies and Services, will be honored for 20 years of service. Both live in Edwardsville.

Those to be honored for years of service include: Josephine Beatty, 2558 Pantoon Road, Assen Krestoff, 45 Fairway Estates; Raymond Troyer, 3312 Franklin St.; Edward Vaughn, 3831 Washington Ave., all of Granite City.

## Employment Survey In Area This Week

A number of households in this area will take part in a nationwide survey on employment and unemployment to be conducted the week of December 14-18 by the Bureau of the Census, Curtis T. Hill, director of the Bureau's regional office in Chicago, announced today.

The survey is taken monthly by the Bureau for the U. S. Department of Labor. The households interviewed are scientifically selected to represent a cross section of all households throughout the United States.

Statistics on conditions in the labor force, especially on the unemployed, are prime measures of economic conditions of the country. In October, for example, the survey indicated that 78.9 million persons were employed and 4.3 million were unemployed, with a seasonally adjusted unemployment rate of 5.6 percent.

## Aquatic Certificates Awarded 83 at YMCA

The Tri-Cities Area YMCA was filled to capacity last week, when 83 youngsters and their parents attended the "Fall Aquatic Awards Night" program honoring those who successfully completed requirements in the National YMCA aquatics instruction series.

The 83 children received certificates from Michael Jesse, Red Cross Water Safety Instructor, who coordinates swim classes conducted at the local "Y."

Those recently finishing segments in the program ranged from the beginning Paddler swimmers to the top-ranked Porpoise class, the highest level taught through the Y swim series.

Prior to the awards ceremony, the youngsters and parents viewed demonstrations of swimming skills performed in the Y pool by Porpoise class participants. A film, "Breath of Life," detailing artificial respiration by mouth-to-mouth resuscitation also was presented.

**Receiving certificates in the seven instruction categories were 10, Paddlers; 15, Tadpoles; 12, Minnows; 17, Fish; 10, Flying Fish; 8, Shark; and 13, Porpoise.**

Punch and cookies were served to conclude the awards night. Classes began this week at the YMCA in the new winter-swim instruction program, Jesse announced.

There are table decorations, Advent wreaths, wall sprays, Xmas balls, dwarf Xmas trees and mantel pieces. Red candles are used as accessories in some.

Christmas may be for kids. But memories are for mothers.

## The Mother's Ring®

Christmas means a lot to everybody. Especially the little ones. Every year seems just a little more special, a little more exciting than the one before.

But for a mother it's different. She remembers. Warm, personal thoughts, joyful recollections of Christmas past. Each one filled with gaiety, fulfillment... and love.

This year, why not give a gift of memories? The Mother's Ring.

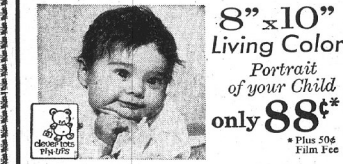

Two bands of solid 14k gold. Warm. As warm as the love of husband and wife. United in love by colorful synthetic gems. One for each and every child's birthday.

She'll always remember Christmas. But this year's will seem just a little bit nicer.

tions are available to contractors at the office of Gabriel & Dugleroff.

The school board also is scheduled to open bids at 3 p.m. Thursday for furnishing typewriters and electrical wiring. On Dec. 14 the board will receive bids on library equipment and on Dec. 21 to receive bids on furnishing lumber supplies.

Last Monday's fire which occurred at 3:55 p.m., apparently the work of an arsonist, caused a damage estimated at from \$800,000 to \$1 million.

School Superintendent B. J. Davis said in Thursday night's board meeting that the loss was fully covered by insurance and that the district has received excellent cooperation in its arrangements for the temporary repairs.

A mesh fence is to be erected around the damaged area of the building.

A statement issued by the school officials stated that the school buildings had been inspected by structural engineers, County Superintendent of the Education Region, Robert Trumpe and by the architects and were deemed safe for occupancy.

Students returning to school were urged not to congregate near the construction area to ensure a safe operation in the repair work.

A Madison man was being held by Madison police today as a suspect in the theft of approximately \$220 in a burglary at the Greenwood Tavern, 1013 Greenwood Ave., Madison, at 1:30 a.m. Friday.

## More About Levee Trustees

the conviction. Judge Maeyes denied the plea.

As a result, the machinery was set in motion to replace the present four members in a special election that also would have included election of a fifth board member. The board has been operating with four members since the death last spring of Joseph Grant of Granite City, the second Madison county representative on the board.

County Clerk Eulalia Hoyt of Madison County and County Clerk Dan Ring of St. Clair county notified the office of Gov. Richard Ogilvie late last week that a vacancy existed in the five trusteeships, a step error to set the date for a special election. Under the law the governor cannot appoint levee district trustees unless there is less than one year of the term remaining. The present members were elected in 1968 and still have two years of their terms to serve.

At the same time, State's Attorney Robert Rice of St. Clair County announced he intended to ask the chief circuit judges of Madison and St. Clair county to appoint interim board members to serve until the election could be held.

Chief Circuit Judge William Beatty of Madison county said Friday that he was checking into the law to determine such procedure, but that he would take no action until Saturday's hearing on Hoban's motion for a stay order before Judge Eberspacher.

Meeting Set Wednesday  
The Appellate Court ruling will permit the levee district trustees to continue actively and officially as board members until the Fifth District Appellate Court rules on their appeal. The trustees had declared they would conduct no official business so long as Circuit Judge Maeyes' removal order remained in effect. A regular meeting of the levee board is scheduled at the district's East St. Louis offices Wednesday morning.

Rice, representing St. Clair county and Madison County State's Attorney R. W. Griffith, appeared in Shelbyville Saturday to oppose Hoban's motion for a stay order.

Judge Eberspacher said he granted the motion under a ruling of the Illinois Supreme Court in other cases that permitted the granting of stay orders. He said the ruling on the appeal will depend upon how fast the circuit clerk files records of the case with the Appellate court.

After the records are filed, Hoban will have 31 days to prepare and file a brief. The St. Clair county state's attorney then will have another 35 days in which to file a brief. The case then will be scheduled for arguments.

Deadline Tomorrow For "1776" Trip Tickets  
Nine tickets to the St. Louis presentation of the play "1776" are available at the Granite City Park District office and may be reserved before noon tomorrow.

The park department reserved 30 tickets for the 8:30 p.m. performance of the play on Dec. 15, at the American Theater, and a special bus has been chartered to take the group to the play. Tickets are \$6 each for the performance and \$1.15 for the bus trip.

Church Programs Due  
Quad-City churches may submit their Christmas programs to the Press-Record through Friday, Dec. 11, for publication in the Dec. 17 issue.

## Two Sentenced To 1-1½ Years In State Prison

William J. Polite, 28, and William Derrick, 28, both of Granite City, were sentenced to terms of one to one and a half years at Menard State Penitentiary last week in Madison County Circuit Court.

The sentences followed their conviction on charges of theft in connection with a series of house burglaries in the Wood River area last February.

Four other persons pleaded guilty to area crimes and applied for probation. They are: Thomas G. Davis, forgery in the cashing of checks stolen from the Granite Sheet Metal Co. last April. Marvin Allen Parrish, arrested with him, was given two years of probation followed by six months on the State Prison Farm at Joplin, Mo., which will be waived if the probation is satisfactory.

Granville Butler, 36, of State Park, theft of 74 cases of liquor and 82 cases of beer stolen from a Mount Vernon firm were found at the home in State Park. A charge against Betty Babbleman of State Park Place, arrested with him, was dismissed.

## One Charge Dismissed

Robert D. Pittman of Granite City, burglary at the P. N. Hirsch store in Pontoon Beach in July. A similar charge against Gertrude Wimshis, arrested in the same case, was dropped, but another charge of burglary at the home of Police Lt. William Condis is pending.

Take Ford Jr., robbery of 50 cents and a sweater from Gary Wagner last May 5. Charges in the case against Madison County Clerk Dan Ring of St. Clair county were dismissed by Circuit Court Judge Joseph T. Barr after prosecution rested during a jury trial.

An arson charge against Harold Vaughn in connection with a fire at Gasen's Drug Store here was dismissed, but he still faces a burglary charge.

## GC Firemen Respond To Three Minor Fires

Burning trash in the alley caused \$50 damage to the garage at the home of Gordon wadlow, 254 Benton St., at 8:50 a.m. Saturday.

Granite City firemen also responded to calls at 4:10 p.m. Sunday behind Carp's Department Store where boxes were burning in the alley and at the back yard of the home of John Sarich, 2010 Richmond Ave., where grass was burning at 2:20 p.m. Sunday.

## MORE ABOUT Boy Shot

window of the house and stuck his head inside to look around. At that time the Riggins boy, who was inside the house, fired a shotgun blast at another wall, causing the bullet to strike the intruder away. The shot passed through the plywood over the window and struck Landers, who was outside of the window, just below the jaw on the left side of the neck.

He then either crawled or was dragged 80 feet to behind a nearby mobile home park where he apparently died, authorities said.

Mrs. Riggins called the sheriff's department at 12:45 p.m. Friday to report a burglary in progress at the old house and a patrol car was dispatched. A few minutes later the department received another call reporting a boy shot in a nearby field.

At that time they dispatched two patrol cars and two other cars to the scene where they arrived at 1:03 a.m. They recovered Landers' body and no sign of life at that time.

Deputies questioned Riggins and his father and released them pending further investigation. The three other youths with Landers were also questioned, but no charges were filed.

Landers was born in Granite City and lived here seven years before moving to Edwardsville Township eight years ago. He was a member of St. Boniface Catholic Church, Edwardsville. Survivors include his parents; his grandparents, Mr. and Mrs. George Wiehard of Mount Olive, and Mrs. Cressy Landers of Pacific, Mo.; one brother, Gregory Landers; and five sisters, Kathleen, Annette, Cindy, Donna and Elizabeth Landers, all at home.

Funeral services will be held Tuesday, Dec. 8, at 10 a.m. at St. Boniface.

## GCHS to Hold 'College Night' Tuesday

The annual "College Night" program at Granite City High School, when admission officers and representatives from major universities and colleges are on hand to answer questions from parents and students, will take place Tuesday evening.

The special program affords the prospective college student and his parents an opportunity to learn more about the current requirements and advantages offered by schools of higher learning. GCHS Principal Steve Jones pointed out.

A general review session, including an introduction of the representatives, will be conducted by McCauley in the high school cafeteria, starting at 7:15 p.m. tomorrow.

Parents and students will then adjourn to designated rooms, where university personnel will be available for consultations and to distribute literature pertaining to their specific institution.

In discussing the "College Night" program, McCauley urged all parents and students interested in making plans to attend college to visit the local high school Tuesday and confer with the admission officers.

**Early Planning Necessary**  
The educator pointed out that early planning for college attendance is now required, with most universities and colleges accepting students at the start of their senior high school year.

In the past few years, a trend has developed to contact prospective college students while juniors or sophomores in high school. Most university personnel believe a student has made his choice of college before the final high school year.

Parents of sophomore and junior students, therefore, are especially encouraged to participate in Tuesday night's special program and not leave questions unanswered until the student reaches his senior year, Jones advised.

Even though a young person

may have selected the college his parents, he commented, in which he wishes to enroll, Jones noted that most admission officers are well-informed and individuals able to answer inquiries of a general nature which may be pertinent to any institution of higher learning.

Both state-supported and privately endowed schools will be represented at the "College Night" event. Representatives will attend from Milliken University, Decatur; Central Methodist College, Fayette, Mo.; Eastern Illinois University, Charleston; Illinois College, Jacksonville; Southern Illinois University-Southern campus; University of Illinois Urbana; Washington, University, St. Louis; Illinois State University, Normal; St. Louis University; and McKendree College, Lebanon.

## State Taxpayers Group Approves Constitution

Charles C. Jarchow, president of the Taxpayers' Federation of Illinois, announced that the Executive Committee of the Federation voted to support approval of the State's new Constitution at the polls on Dec. 15. Jarchow stated that while the new proposal is not in every respect ideal from a given point of view, it does provide a modernized approach to the problems of the state and local governments.

The Federation's Advisory Committee had been previously studying the document and recently recommended to the executive committee that the policy of the Federation be one of support of the proposal. The final test of whether or not the new Constitution will be adopted is up to the voters on December 15. The election is a special election, and as a result, a simple majority is all that is required for approval. If approved by the electorate, the new document would replace the State's 1870 Constitution and become effective July 1, 1971.

As the Legislature would have the duty of implementing certain phases of the document by legislation, a transition schedule is provided so that parts of the present Constitution shall be effective until the proper changes have been made to implement the new Constitution.

Voters in the referendum will have an opportunity to vote either "yes" or "no" for the total product. This will be the first proposition on the ballot. In addition, the voters will decide four proposals that will be submitted separately.

## Beneficial Union Sets Christmas Party, Dance

## Billikens Retain NCAA Soccer Title

A goal in the third period by Dennis Hadican permitted St. Louis University's Billikens to retain its national NCAA soccer championship in a 1-0 victory over UCLA at the Southern Illinois University-Southwestern athletic field.

The two teams advanced to the finals Thursday at SIU-SW as SLU edged past Hartwick College 1-0 and UCLA downed Howard University 4-3.

Hadican's score came at 11:36 in the third period on an assist from Mike Seery. The Bills remained undefeated for the season but were tied once. They topped SIU-SW a week earlier by a 1-0 score in the quarter-finals.

QUADRUPLE TEAMED by these Collinsville Kahoks in Southwestern Conference cage contest here Friday, Mike DeRuntz of Granite City High School retained first possession of the ball. He scored 37 points as the Warriors won 71-60.

## Youthful Warriors Topple Kahoks

"Youth will be served" and the young brass basketball squad of Granite City High School served up a winning combination of shooting accuracy and rebounding to defeat the always strong Collinsville Kahoks 71-60 at GCHS Friday night.

The Southwestern Conference clash pitted together a rebuilt Kahok quintet led by Coach Virgil Fletcher and a relatively inexperienced but multi-talented Warrior team coached by Don Detering, a Kahok player for Fletcher two decades ago.

An "oldtimer," Mike DeRuntz, 6-3½, senior center, dominated with 37 points but all other Warrior points were tallied by juniors: Terry Ripka, 6-5 forward, 16 points; Joe Wallace, 6-0 guard, 10; Kevin Dyer, 6-2 forward, six; and Bob Wiggins, 6-1 guard, two points.

Lead Throughout Game

The Warriors prevailed 15-13, 36-25 and 49-44 at the quarters before outscoring the visitors 22-18 in the fourth period. Collinsville pulled to within two points during the second half before Granite City fought back for a 15-point bulge in the closing minutes.

"DeRuntz went to the basket really well and made 15 out of 19 free throws along with 11 field goals," Detering commented to the Press-Record.

"Also pleasing was Ripka's willingness to rebound more intensively than in the past; we vitally need his rebounding," Ripka hit five goals and six charity tosses.

"The guards played better than in the previous two games," a 66-45 win at Springfield Griffin and a 61-46 at Breese Manor Del.

"If the guards keep this up, we are going to be tough this year. Forward Kevin Dyer is not flashy but consistently gets the job done.

"We shot 42%, much better than our 29% at Breese. When we get up to the 50% mark we'll be in good shape. We'll just try to iron out the rough spots and the shooting will come," Detering continued.

"We're a little rusty on defense and our ball handling has been sloppy. We're going to work hard to put a little more polish into our game."

GCHS next will visit two capable league foes, Belleville West Friday and East St. Louis Saturday.

## Soccer Warriors Snag DeSmet 309 for Fourth Win in Row

Granite City High School remained undefeated for the season in soccer by defeating DeSmet in an away game, 3-0 Friday afternoon.

In the first period Granite City took the lead on a goal by Wayne Canada, assisted by Bobby Galvin.

In the second period, Gary Duncan scored with a 40-yard right to left kick on a throw-in from Bill Bronnabauer. "It was one of the prettiest shots you'll ever see in soccer," said head coach Thomas Wyrostek.

The final GCHS score came on a shot by Galvin, assisted by Jimmy Forrester. Granite City is now 4-0 for the season with one undefeated game. "Only one goal has been scored against the Warriors and they now have four shutouts going for them."

DeSmet is ranked as one of the top teams in the area, having only lost to Christian Brothers College, the "Team to beat," by a score of 2-1 earlier this season.

## Red Devils Bow to Vashon in 64-57 Tilt

The Venice Red Devils bowed to Vashon of St. Louis 64-57 Saturday at Venice in the first contest against the two teams.

Vashon, which is rated as one of the better St. Louis area schools, was added to the Venice schedule this season.

"Vashon best us to death on rebounds," Venice Coach William Ohlendorf said. "They are so big that they controlled the boards the whole game. Their players were 6-7, 6-4 and are good leapers. We turned the ball over too many times for this game and were not able to get enough shots to win."

High point man for the Red Devils was Doug Johnson, six-foot forward, scoring 22 points. Vashon's high point man was their Center, Al Turner who scored 21.

The first quarter saw Vashon leading 16 to 12. It was still anyone's game at the half when Vashon had a five-point lead 37 to 32.

The Red Devils were outscored by 6 points in the third quarter. Vashon scored 16 points and Venice 10, making the third quarter score in Vashon's favor 53-42.

Venice outscored Vashon in the final quarter, but it wasn't enough to win. Vashon scored 11 points to the Red Devils 15.

In addition to Johnson's 22 points, scoring for Venice were Cedric Gardner, 14; Jim Ohlendorf, 9; Ray Mosby, 6; and Rich Gormerhan, 2.

The Venice junior varsity lost its game 69-49.

The Red Devils travel to Livingston Tuesday.

To-date Livingston has a 4-3 record. Last season the Red Devils beat Livingston twice.

# SIU Cougars 114-105 Over Blackburn

Southern Illinois University-Southern's basketball team, now 2-1 after beating Blackburn College 114-105 at Collinsville Saturday night, will open its home season Tuesday night at the Edwardsville High School gym with the Miners of the University of Missouri-Rolla furnishing the opposition. Then, on Saturday, SIU-SW will host the Concordia Seminary Preachers, who are now 7-0.

Last season, the Miners squeaked by the Cougars of Harry Gallatin in the final 20 seconds, 73-66, on the four straight free throws of Paul Pederson, son of the Concordia Seminary coach. Pederson is back as is the Miners' sophomore ace, Oran, Missouri's Rod LeGrand, who led his teammates with 17 points.

In Coach Jim Dudley's Cougar victory over Blackburn it was again the sensational performance of sophomore guard, Denny Threbnorg, who put down a late rally by the losers. His 32 points led all scorers, but his deadly accuracy at the free-throw line—4 of 16 chances—was decisive in the game's final moments. Ruff Essington of Venice added 15 points.

In SIU-SW's loss to the University of Missouri-St. Louis, Threbnorg hit 4-for-4 in the Cougars' victory over McKendree, he hit 14-of-15, for the season, he's hitting at a .910 pace. At Lake Lank Junior College with Dudley last season as a freshman, he hit at a .850 clip.

Major Barnes paced Blackburn's losing cause with 30 points, with 14 of them coming in the Beavers' late surge which failed. Dan Stauffer added 21 for Blackburn, while Rick Essington with 15 and Otis Ward with 19 trailed Threbnorg for the Cougars.

## Veterans Eligible For Funds for More Schooling

John B. Naser, director of the Veterans Administration office in Chicago has announced ways that servicemen and veterans—especially high school "dropouts"—can continue their education.

Naser said one of the ways was through the Precharge Education Program (PREP), which helps servicemen on active military duty earn high school diplomas or prepare for higher education or vocational training.

Another program provides tutorial assistance above the high school level for veterans and servicemen alike who study under the G. I. Bill. This can be used to fulfill requirements for admission to schools of higher education or for refresher courses to enable a veteran to qualify for employment.

He noted VA pays servicemen in PREP up to \$175 month for the regular costs of tuition, fees, books and supplies. The actual amount is based on the actual amount of the course.

The servicemen receive a lump sum payment when the deficiency make-up or other courses required for educational programs above high school level is used.

Naser explained that servicemen must have at least 181 consecutive days of active duty after Jan. 31, 1955, to be eligible for PREP, and pointed out that this benefit is not chargeable G.I. Bill time earned during military service.

Naser urged servicemen interested in PREP to discuss the program with their base education officers and, if courses are available, to obtain VA application Form 21E-1000-34. This should be completed and returned to the base education officer of the VA office at P.O.

## Lecture on Messiah For Madison Pupils

Dr. William Claudon, Professor of Music Education, at Southern Illinois University-Southwestern, will present a lecture on Handel's Messiah to the Madison High School Tuesday afternoon.

The high school students along with the 7th and 8th grade Humanities students of the Madison Junior High School and the Dunbar School will attend a program of excerpts from Handel's Messiah at Powell Symphony Hall on Dec. 16. The concert will be presented by the St. Louis Symphony under the direction of Leonard Slatkin, assistant conductor.

The program is a part of the musical aspect of the Humanities Program in the Madison Public School under state sponsorship by the Department for the Program for the Gifted.

or for refresher courses to enable a veteran to qualify for employment.

Teachers of the high school, Junior high school and Dunbar School will accompany the students are Nelvin Heiser, Mrs. Nancy Mier, Miss Verlyn Ivy, Loyal Gunderson, Miss Elaine Shipoff, Mrs. Sarah Bosworth.

Box 8136, Chicago 06680.

Under the tutorial program, VA will pay up to \$50 monthly in tutoring fees for a maximum of nine months to prevent eligible veterans and servicemen from failing in a subject essential in courses of study. As in PREP, costs of tutorial service are not chargeable to veterans' educational eligibility.

Veterans and servicemen interested in tutorial assistance were advised to get a VA application (Form 21E-1000-34) from their school, base education officers and, if courses are available, to obtain VA application Form 21E-1000-34. This should be completed and returned to the base education officer of the VA office at P.O.

## Senator Praises Citizens For Work on Phone Rules

State Senator-elect Sam M. Vadalabene (D - Edwardsville) today praised the dedication of many citizens in their successful efforts to urge the Illinois Commerce Commission to upgrade rural telephone service.

Vadalabene said that at ICC hearings, many people fought for a proposal he had submitted to update a 1923 rule under which telephone companies were operating. "The people who came to testify were well prepared and did not give up prepared and did not give up or back down even though they were subjected to long waits, technical harganues and hostile reactions from the phone companies," he said.

The proposal, General Order 1, sets new standards of service throughout the state, but concentrates on the improvement of rural telephone service. It requires that all party rural lines be changed to not more than four parties by Dec. 31, 1973.

It also orders that all companies make available one party service on a flat rate basis, on or before that date, which will eliminate mileage

charges now applied to private lines in rural areas.

**1923 Order Applied**

Vadalabene said, "It was brought to my attention that companies were still operating under the direction of a Commerce Commission order issued in 1923. That order permitted as many as eight or more parties to a line. It also allowed business subscribers to be serviced on regular party lines."

The volume of business calls can interfere with calls other parties have to make. There was even testimony from people who had to place toll calls to talk with their neighbors."

The order states that it shall be the objective of all telephone companies to ultimately provide one-party service and that all companies shall make available one-party service on a flat rate basis.

Vadalabene cautioned rural subscribers to watch closely to see that the new order is enforced. He also said that his efforts will continue to insure upgrading of maintenance and repair services.

## Choice of Child's Toys Should Be Selective

Toys are the tools of a child's play—they are what he works with at the business of growing, physically, mentally and emotionally.

For this reason the selection of toys—a major item in the family's Christmas shopping—is an important matter, a Southern Illinois University child development specialist points out.

Michael Zunic, chairman of the child and family department, explained that since toys contribute to the child's development "they should be selected to fit that development at any given stage."

"An understanding of the child's varied play interests will give insight to toys that he will enjoy," he said. "The young child enjoys taking objects apart and putting them together. As he grows older, he becomes interested in sounds, words, time, space and distance. This interest can lead to interest in science, art, literature."

Zunic said no hard-and-fast rules on toy selection can be made since each child is an individual and has his own interests, likes and dislikes.

He did, however, offer these suggestions:

(1) Toys should be "balanced" to satisfy his varied interests so they can contribute to his over-all development.

(2) Physical development can be aided by pull, push and sports equipment.

(3) Manipulative, constructive and creative skills can be stimulated by blocks, drawing and hobby toys. "This type of play encourages initiative, stimulates observation and develops resourcefulness," he added.

(4) Initiative, imaginative, dramatic playthings encourage initiative expression and help the child to understand the world around him through imitating adult activities. He cited such toys as dolls, housekeeping equipment, dress costumes, miniature versions of actual tools and equipment grown-ups use.

(5) Games which involve several children encourage social play leading to social development as the child learns how to win and lose, to practice fair play and good sportsmanship.

(6) Age suitability is essential to insure that the child can use the toy, enjoy it and profit from the play activity. He suggested checking tags and labels which indicate the age range suitability.

## Uniwah District Has Roundtable Session

The Uniwah District of the Cahokia Mound Council held its Boy Scout Roundtable last week at the Venice Recreation Center with a pot-luck supper for the members and their wives. Ray Gaudette Sr., roundtable commissioner, was in charge.

In keeping with the Christmas season the room was decorated with a tree and the tables contained centerpieces of red and green bowls filled with pine cones, greenery and ornaments accented with poinsettias and candles. Christmas carols were played during the meal.

The invocation was given by Father Rochelle of St. Joseph's Catholic Church.

Following dinner Gaudette introduced Ted Scrum, district commissioner, who led the group in Christmas songs.

Christmas games were played with Council Coffee Cups going to the winners.

G. Robin Henn, council president, and William Monical, council executive, were introduced and both gave short talks on the value of leadership for boys.

Bill Irean, district scout executive, distributed Boy Scout Calendars.

## New Technique Aimed at Cutting Coronary Deaths

A team of California investigators has reported on development of a simple circulatory assist technique aimed at cutting the terrible death rates associated with coronary attacks. The heart, when suddenly deprived of much of its nutrition by a clot in a coronary artery, goes into shock and the blood pressure collapses.

Even with present techniques, an estimated 65 percent of coronary victims in the United States, or about 250,000 persons a year, die of shock. Bjoerngeir Sun Meerbaum and Doctors Tzu-Wang Lang, Jose Lozano, and Elliot Corday made their report at the Symposium on Recent Developments in Biological Fluid Mechanics at the 63rd annual meeting of the American Institute of Chemical Engineers at Chicago.

They described a series of experiments in experimental animals in which heart shock was stimulated by deliberate constriction of coronary arteries. They reported on their new life-saving technique, AASP, for pumping the failing heart. A simple plastic tube is inserted into the large artery (aorta) which carries blood from the heart to all parts of the body.

The tube is connected to a computerized pump which alternately withdraws and then injects a small amount of blood into the aorta. The pump is synchronized into suction and injection phases which are precisely coordinated with the natural rhythm of the heart.

## Warrior Wrestlers Bow, Win Triangular

The Granite City High School Warriors wrestling team bounced back from a resounding defeat Friday night against defending Missouri State Champions, Northwest High School, St. Louis, to win over Bloomington and Decatur Eisenhower in a triangular meet at Bloomington Saturday.

Northwest rolled over Coach Schmitt's Warriors Friday by a score of 29-15, by handing out seven losses and holding to two draws against their four losses. Schmitt said after the meet, "There's really no excuses, they beat us, but we may have done a little better if the kids had been in school this week and if we had met them at home."

Saturday the Warriors returned to form as they walked over Decatur Eisenhower 45-5 and slid by Bloomington 23-19. Saturday at Nameoki and Fehling roads. She was admitted to St. Elizabeth Hospital following x-rays to the skull and spine.

Bloomington was a little tougher to defeat as the score was 20-19, going into the heavyweight class, the final match of the meet. "The two teams have always been close," said Schmitt. "Last year they ended with a record of 16-1, the only loss being to us by a score of 22-9," he said.

Individual statistics this weekend were:  
98—Gary Loy, Northwest, loss.

## MORE ABOUT Illinois Airport

Mayor Cervantes told the Board of Aldermen that "it (the airport project) would provide jobs to St. Louisans as well as Illinois residents."

"The jobs which would be developed during the construction of the airport and the jobs which will be generated by its operation, as well as other jobs which will be created indirectly, will be at the very doorstep of our city and available to our people," the mayor said.

"An airport constructed to the west, and by the west I mean considerably west of St. Louis suburbia, is not very likely to produce many convenient jobs for people who live in the core city... the question is not so much where the airport is built but where the people live who can get jobs," he added.

"I am convinced," Mayor Cervantes continued, "that St. Louisans stand to benefit even though the jobs may be physically located in the state of Illinois. The point is, more St. Louisans will have employment and will spend more money in St. Louis."

## 655 Apply For Yule Baskets; Set Record

The Salvation Army's "Tree of Lights" campaign to provide food baskets and clothing for needy Quad-City families today stands at \$2460, or close to 25% of the \$10,000 goal.

Applications for Christmas baskets have been received from 655 families, an increase of 117 over last year and the highest number sought since 1965. Many of those applying currently are on the unemployed rolls, a spokesman for the local Salvation Army office said today.

Contributions received since the drive was launched Nov. 28 have illuminated 98 lights on the Memorial Park across from St. Elizabeth Hospital.

A total of \$340 was collected by Granite City Kiwanis, who served as Bellringers Saturday, turning on 13 lights, and the James Stuart Chapter, Order of DeMolay, secured \$86 from passersby while ringing the bells Friday night.

This evening the Trail Riders Club will act as Bellringers, with the Tri-Cities Secretaries Association to be stationed at Nameoki Village shopping center tomorrow night.

## Madison, Venice Men Injured In Fight

Two area men were injured seriously in a fight at the American Legion Post 799 home in Venice at 12:10 a.m. Monday, police reported.

Officers said Russell Turner Jr., 23, of 1108 Douglas St., Madison, and Van Sullivan, 20, of 1028 College St., Venice were arguing and Turner left, but returned later with a hatchet. He allegedly struck Sullivan. Sullivan, police said, produced a knife and cut Turner's face under his right eye and beside his nose.

## House 'Conduct' Group to Hear Public Opinions

The House Committee on Standards of Official Conduct, currently studying possible remedies for loopholes in Federal laws dealing with the financing of political campaigns, has invited opinions from the public at large.

"We want to hear all who have ideas that will help us draft recommendations to the House on how we may better manage the raising, reporting and use of campaign money," Congressman Melvin Price (D-East St. Louis) chairing the committee, said in announcing hearings for tomorrow and Wednesday to obtain the views of interested citizens and representatives of interested organizations.

Ten members of the House of Representatives testified before the committee last week. Their ideas ranged from use of single-purpose script for all campaign contributions and expenditures, proposed by Cong. Florence P. Dwyer (R-N.J.) to Federal subsidies for certain campaign costs as part of an over-all reform bill suggested by Cong. John B. Anderson (R-Ill.) and Charles E. Bennett (D-Florida) urged more "sunshine" in election laws, saying full disclosure "comes as close as anything to being the all-purpose cleanser of American politics."

Chairman Price urged that anyone with ideas that might be of help to the committee contact the committee staff so that witness schedules may be arranged.

"I know we will have some kind of recommendation ready by the end of this year," he said.

The committee's exploration of the many-faceted problem of campaign finances was undertaken in response to House Resolution 1031 which directed the committee to study the need for remedial legislation. The resolution also assigned to the committee a similar task with respect to lobbying activities. Hearings on the latter subject were completed in October and, Mr. Price said, the committee is now preparing recommendations in that area.

## 64 Trophies Presented MAA Football Players

Noting that times have changed since he received a \$5 bonus to get to training camp and \$90 to play a game, Madison County Sheriff George Musso, a former lineman for the Chicago Bears, told youthful players, sponsored by the Mitchell Athletic Club that "football still remains the greatest of sports."

The former professional gridiron star who played 12 years with the Bears was a speaker at the Mitchell Athletic Association's annual banquet for youngsters who take part in the Granite City Park District football program.

Close to 150 players and their families attended the dinner, held Friday evening at Amvets Post 51, 5100 Lakeview Drive. Participation in any sport is demanding, Musso told his young listeners. "Football players play hard and study equally as hard to obtain good grades," he said. He commented that due to early training and requirements during his high school, college and professional career, he neither smokes nor drinks.

Also addressing the boys and their parents was State Sen. Sam Vadasabadi, who said through the rudiments of cooperation, teamwork, friendship and dedication to one another in striving to achieve their goals.

"It is the fundamental significance of Little League programs and a belief that it is important for our younger generations to experience teamwork and faith in one another."
